

Hazardous Materials (Hazmat) Checklist

This checklist ensures the safe handling of chemicals, paints, or other hazardous substances.

- Are all hazardous materials properly labeled?
- Are Safety Data Sheets (SDS) available for all hazardous substances?
- Are hazardous materials stored in appropriate, designated areas?
- Are spill kits readily available and stocked?
- Have workers been trained in handling hazardous materials?
- Are PPE requirements followed when handling hazardous substances?
- Are proper ventilation and exhaust systems in place?
- Are hazardous materials transported safely?
- Are emergency procedures for hazardous spills established?
- Are incompatible chemicals stored separately?
- Are waste disposal procedures for hazardous materials followed?
- Are fire suppression measures in place near hazardous materials?
- Are flammable liquids stored in appropriate containers?
- Are eyewash stations and emergency showers accessible?
- Are regular inspections conducted to ensure compliance?
