

# Personal Protective Equipment (PPE) Checklist

This Checklist ensures all required PPE is available and in good condition to protect workers from potential site hazards.

- Is a hard hat worn and in good condition?
- Are safety glasses or goggles available and scratch-free?
- Are high-visibility vests worn on site?
- Are gloves suitable for the task being performed?
- Are steel-toe boots in good condition?
- Is hearing protection used in noisy environments?
- Is respiratory protection available for dust or fumes?
- Are fall protection harnesses inspected and fitted correctly?
- Are flame-resistant clothes used where required?
- Is weather-appropriate PPE available?
- Is all PPE stored correctly to avoid damage?
- Are disposable PPE items replaced regularly?
- Have workers been trained on correct PPE use?
- Is PPE selected according to risk assessment needs?
- Are PPE compliance checks conducted?
