

## Pre-Start Safety Checklist

This checklist ensures the worksite is safe before starting daily tasks to prevent accidents.

- Has a site inspection been completed for hazards?
- Are all emergency exits and evacuation routes clear?
- Is all PPE in good condition and available?
- Are tools and equipment inspected for damage before use?
- Are work areas free of trip hazards like cables, materials, and debris?
- Is the first aid kit stocked and accessible?
- Have all workers signed in and acknowledged site-specific hazards?
- Is the weather condition safe for work?
- Are safety barriers and signage in place?
- Have all required permits been obtained for high-risk tasks?
- Is all machinery and equipment in good working order?
- Are fire extinguishers in designated locations and functional?
- Are site communication devices tested and operational?
- Have workers been briefed on the day's tasks and risks?
- Are emergency contacts and procedures displayed?
